***Important notice from the truck planer for the 2. and 3. day of the Competition:**

On the Terrain Bela Reka, are 2 large buildings/houses that are still under construction. For the safety of all competitors, please do not approach these facilities. They are private property but still not adequately fenced. Not a any single truck passes right next to those buildings, but at least 10 to 20 m from them, which is a sufficient distance. Thank you.

in the following, are the final lengths of the tracks as well as the height difference.

The forest has not started to grow yet, so the accessibility and visibility are very good. The map is very good and has been updated in the last few weeks.

Since the start on the first day is next to a sown field, the approach to the start from only one direction will be fenced off in order to prevent someone from intentionally passing through the field. Please pay attention in order to preserve the wheat grains for now.
